3-MONTHS PROFESSIONAL CERTIFICATION BOOT CAMP

# MULTIPLATFORM APP DEV IN FLUTTER

This course aims to teach development of professional level apps using Flutter being Google's modern and free SD allowing to write cross platform application both for desktop web and mobile apps with the same code-base. This course enables the trainees to create fast and stunning mobile applications using Flutter. The course comprehensively covers everything from setting up development environment to deploying apps on Google Play store. The participants will learn about Dart programming language, Firebase for backend development and Figma for UI design. This course takes you from an absolute beginner to being able to release professional quality apps. The course targets to prepare the participant for Flutter Certified Application Developer Certification exam (AFD-200) of Android ATC.

## ELIGIBILITY CRITERIA

Final Year Students/ Graduates of BS in Info Tech, Computer Science, Software Engg, Electrical Engg and related fields.

Orientation

LIVE  
WEBINAR

Saturday, Aug 24, 2024

Timings: 4pm-6pm (PST)

Starts Sep 2, 2024

Duration: 13 Weeks

Days: Mon, Wed & Sun

Timings: 10am - 2pm (PST)

# LINUX SYSTEM ADMINISTRATION, CLOUD COMPUTING & DEVOPS ENGINEERING

## KEY FEATURES

- Uniquely Defined Tripple International Certifications:
  - Linux System Administration
  - AWS Cloud Solution Associate
  - AWS DevOps Engineering
- Highly Qualified Certified Trainers
- Comprehensive Paper-Free Online Learning Environment
- Interactive live Virtual Classroom
- Dynamic Recording for Post-session Reviewing
- Realistic Mock Practice Tests for Exam Readiness Evaluation
- Verified Sharable iqracity ITCC Certificate
- Assistance in Job seeking in international Cloud Infrastructure and DevOps organizations.
- Both On-Campus and Online Sessions in Hybrid Environment
- Preparation for internationally in-demand technology profession

## ELIGIBILITY CRITERIA

Final Year Students/ Graduates of BS in Info Tech, Computer Science, Software Engg, Electrical Engg and related fields.

# INFORMATION & CYBER SECURITY

**N|DE**  
Network Defense Specialist

**E|HE**  
Ethical Hacker Specialist

Information & Cyber Security (I&CS) course covers the fundamental concept of information security, network defense, penetration testing, platform hardening, IOT security, vulnerability analysis. This course prepares for career in I&CS. Participants will start from basic I&CS concept to develop their skills and work up to the higher level I&CS professional practices using Linux OS platform. The concepts covered in the training program are focused on knowledge-based training coupled with extensive hands-on application. Every tactic discussed in training is backed by step-by-step labs conducted in a virtualized environment with targets, tools, and vulnerable systems. Through our lab technology, every participant will have comprehensive hands-on practice to learn and apply their knowledge. The course targets to prepare the participant for Certified Network Defense of EC Council.
